MILDRED SPRINGER: My name is Mildred Springer

5 and I am a long-time resident of Mineral County,

6 Hawthorne, Nevada.

7 Yucca Mountain is in the middle of a nuclear

8 wasteland, period. It will be hot for 250,000 years.

9 What are we going to save it for? So somebody can go

10 out and build houses out there in 20 years? Better we

11 should take the money and run.

12 Send money. Build us infrastructure. Build us

13 roads and build us a railroad. And, if you want to, you

14 can build us an airport. I am for Yucca Mountain.

15 I think that the whole thing was a -- that all

16 of this confusion is politically unsound and physically

17 unsound. I'm for Yucca Mountain. Let's go, kids. Get

18 it on the road. Start building. Send money.
